## FOR THE PUBLIC GOOD

This Will Interest Every Resident of Rich Hill.

You can readily verify the following particulars, for the gentleman supplying them will be only too pleased to answer any inquiries by mail. If you suffer from disorder of the kidneys or bladder and desire to be cured, write him about Doan's Kidney Pills and learn that the following statement is true in every particular:

O. D. Austin, editor of Bates Co. Record, Butler, Mo., says: "I was born in northern Ohio, but came to Missouri about 40 years ago. The longer I have dealt with and understood the Missourians, the more I admire them. I am now the oldest journalist in continuous service in the state of Missouri. I have had some trouble with my kidneys. I suffered with pains in my limbs, more particularly in my knees. I think the trouble affected my eyes. I have been treated for these difficulties, but lately I tried Doan's Kidney Pills and they have given me positive relief. I have no hesitation in recommending them to sufferers from rheumatic pains or other ills attributed to the inaction of the kidneys. My general health has been much better since I used them. I can do more work and feel better in many ways."

## Dr. H. R. Winchell Dead.

Died, at his home in this city at 5 o'clock a. m., Saturday, September 29, 1906, Dr. Harvey R. Winchell, aged 70 years, 7 months and 8 days, of heart trouble, after an illness of only a few days.

Dr. Winchell was born Feb. 21, 1836, in Lycoming county, Pa., being one of eight children born to Rev. A. B. Winchell. The father was a prominent minister in his day in the Baptist church in Pennsylvania and New York, and was sent as a missionary to the Indians in Wisconsin in the early days of that state. The subject of this sketch was educated in the schools of the State of Wisconsin, where he grew to manhood and was married to Miss Phoebe Towle, Sept. 2nd, 1857, his father acting as the minister who performed the marriage ceremony and approved the union. In early life the deceased turned his attention to mechanics, and became known far and wide as an expert miller, wheelwright and machinist. While pursuing this avocation he was led by a combination of circumstances to take up the study of medicine. This he did with the same interest and intensity characteristic of the man. He took a course in the medical department of the University of the State of Iowa and graduated in the Department of Homeopathy and entered upon the practice of his profession. From the first he was successful and soon had a large practice.

In 1882, Dr. Winchell removed from Iowa to Rich Hill, Mo., and soon established a reputation as a most excellent physician and always had a large practice. Between him and his patients always there grew up a feeling of sincere esteem and affectionate regard that lasted throughout life and every patient was his friend. The departed leaves behind him his beloved wife and five children and seven grandchildren: Mrs. Thalia Garland and two sons, Royal and John of Moffit, Colo.; Mrs. Maggie Hotchkiss and daughter, Madge of Colorado Springs, and Mrs. Alma Hereford, of Kansas City; Mr. Ben H. Winchell and two daughters Mildred and Dorothy, of Chicago, Ill.; Mrs. Edith Moore of St. Paul, Minn.; and Mrs. Kitty Creasey and son John of this city. Three brothers and a sister also survive him. T. S. and R. W. Winchell, of Seattle, Wash.; Mrs. Allie Lewis of Winthrop, Ark.; and C. D. Winchell of this city.

Dr. Winchell adhered to the faith of his fathers with a devotion peculiar to his family and in all things maintained their Christian integrity with scrupulous exactness, though he never allied himself with any churchly denomination. His personal integrity no one ever questioned. His Christian character was a part of himself. An affectionate husband and indulgent father, a considerate brother, a faithful friend, a good citizen he was over and above all "the noblest work of God, an honest man." An intimate acquaintance of many years leads the writer to express the conclusion of the observation of all these years in this language: We never knew a better man than Dr. Harvey R. Winchell. Such has always been our confidence in the man and the physician that we always felt we could trust the health, the honor and the very life of any member of our family in his charge in full assurance that they would be as safely and sacredly guarded as his own. To us he always seemed as an elder brother. That he had his faults we doubt not but we never saw or knew them. They were so dominated by the soul of honor within the man that their appearance in the outward life was never manifest even to his most intimate friends. Dr. Winchell has left to those who come after him a legacy more priceless than gems or jewels or hoarded gold.

In the good name he bore, the affectionate esteem he inspired and the unstained character he sustained through all the vicissitudes of an eventful life of three score years and ten. The funeral of the husband and father took place Monday afternoon, Oct. 1st under the direction of H. M. Booth, undertaker, from the home on East Maple street, Rev. A. E. Ryan, of the Walnut Street M. E. Church preaching the funeral. Geo. P. Huckleby a personal friend of the deceased reading the foregoing life sketch. The funeral choir was Mrs. Cora Jamison, Misses Minnie Wears and Nannie Huckleby, Mr. Carl Gench, and Mr. W. W. Cheverton. The pallbearers, Messrs. J. W. Jamison, W. Orris, Geo. E. Logan, John Hagan, A. P. Stebbins, and . . . Hoover all personal friends. Elaborate floral tributes in the forms of wreaths, crosses, mortar and pestle made of flowers, representing the profession of deceased, and cut flowers in profusion were the offerings of innumerable friends and to numerous to mention here. The body was followed to the grave by a long procession of loving friends and laid in its final resting place in Greenlawn cemetery. The children of the deceased were all present at the funeral except Mrs. Maggie Hotchkiss.

H. P. Elliott departed Tuesday noon for Hartington, Nebraska where he goes to visit a brother and from there to see two or three sisters who live within 200 miles of that point. He will also visit other relatives in Minnesota Wisconsin and Iowa. He will be gone six or eight weeks.

Glen, the little eight year old son of Mr. and Mrs. J. H. McElroy died in this city last Thursday night after a long and painful illness from the effects of an abscess on the liver. An operation was performed on the little sufferer to relieve him and it did so but the relief came too late to save his young life and it went out as stated. He bore the operation with a manly fortitude and patience remarkable in one so young. He was a bright intelligent and affectionate child and his death comes as a severe blow to the mother and father. While such things come into our homes they all go to make up the ever changing phase of an ever changing life. The sympathy of their friends and neighbors go out to the sorrow stricken parents in their bereavement.

I know it has saved my children from many sick spells."

## Marsh-Conover.

Our young friend, Harry Marsh, of the postoffice news stand, stole a march on his friends by taking his sweetheart, Miss Fay Conover, to Butler to the home of his sister, Mrs. Robert Johnson, and marrying her. Rev. Joel A. Barker was the preacher in charge of the ceremony that made them man and wife. The groom is one of Rich Hill's splendid young men who reflects honor on the community in which he lives by his correct habits, business ability and gentlemanly bearing. His bride is one of Rich Hill's fairest young ladies and will no doubt be a worthy helpmeet to the husband of her choice. THE TRIBUNE wishes them a happy and prosperous married life.

## NO DIPHTHERIA AT BUTLER.

All Reports as to the Disease Circulated in the County are Groundless.

The physicians and business men of Butler are pleased to make the statement that quarantine on the few homes where diphtheria manifested itself has been raised and all patients under the physicians' care have been discharged.

The disease in most cases was in a very light form and from prompt quarantine regulations, with due precaution in isolating all suspicious cases, we were able to check it before it became at all prevalent.

At present there is not a single case in Butler, in spite of the report over the county of there being 30 or 40 cases existing, nor do we fear any further developments. Signed
